Tadpole Time 2011

Tadpole Time is designed for ages 18 months to 3 years. Each program includes a story, animal encounter, and a guided tour of the Aquarium with one of our educators. You get all this for just 7\$ per child/adult pair. Programs start at 9am and last approximately 45 minutes.

January 26th – Slippery Scales

The Newport Aquarium has a special guest all the way from Florida! Mighty Mike is over 14 feet long and weighs around 800 pounds. So we're going to start off our 2011 Tadpole Times talking about him and some of his other reptile friends. Tadpoles will get to meet a real live American alligator for the animal encounter and will get to learn more about reptiles.

March 30th – P is for Penguins

Come learn about the "coolest" animals in the Aquarium. Our penguin exhibit is scheduled to reopen at the end of March and your tadpoles will be some of the first guests to see it. We'll spend some time checking out the new and fun things to do in the exhibit and will learn more about our chilly friends from Antarctica.

May 25th – Moovin' and Groovin' Under the Sea

Come boogie at the Aquarium as we wake up your tadpole with some fun ocean music. They'll get to slither like a snake, waddle like a penguin and much more as take a dancin' tour around to see some of the most active characters in the Aquarium.

July 27th – What do Fish Eat

This will be a very special Tadpole Time as we explore what goes on behind the scenes to keep our fish happy and healthy. Tadpoles will get a chance to see, feel and even taste some of the food that our fish eat every day. We'll also take some time to help out and will be feeding the fish in our Amazon tank.

September 28th – F is for Frog

We all know that a tadpole's favorite place to hang out is in the Frog Bog. So we've planned a day to do just that and only that. After a story, your children will get to leapfrog around the Frog Bog exhibit and we'll wrap up by meeting a couple frogs up close!

November 30th – Scuba Santa's Favorite Things

You won't want to miss this Tadpole Time. We'll wrap up our year with an easy day checking out some of Scuba Santa's favorite things to see and do in the Aquarium. Of course there'll be a story and an animal guest, but if everyone's been nice this year we may even have a special visitor.

Spaces are limited and registration is required so please call 859-815-1442 or e-mail sslone@wavefoundation.org with questions or to sign your child up today!
